Evoleta CMS

Product Sheet

Evoleta CMS is a Web solution we developed for organizations and individuals looking for quick service turnaround, easy management and affordable prices. You will achieve more in less time at great rates.

Achieve more

Evoleta CMS was designed specifically for non-technical users so that they will be able to manage their own websites with minimal knowledge and time. For individuals this is certainly an advantage: professionals from different expertise areas will enjoy the ease of use. Organizations also can also benefit off from Evoleta CMS, they neither have to employ an in-house webmaster nor have to pay extra for on going maintenance.

Evoleta CMS

Product Sheet

The content editor has WYSIWYG features, like your regular text processing application. Also, you can set up the META tags important for search engines, or relocate the page in a different folder.

The screenshot displays the Evoleta CMS content editor. On the left, there is a sidebar with 'General settings' and 'Content management'. Under 'Content management', a tree view shows 'Static Pages' containing files: index.html, tos.html, privacy.html, services.html, and about.html. Below the tree are buttons for 'New page', 'New folder', and 'Delete'. The main editing area features a WYSIWYG toolbar with various text and image editing tools. The preview area shows a webpage with the heading 'Welcome to Our Website!' and a hot air balloon image. Below the image is a paragraph of placeholder text: 'This website is powered by Evoleta CMS. It belongs to the fictional company "ACME Corporation" and it helps us presenting our Web development platform. The site runs the major modules deployed in every standard installation of Evoleta CMS. Enjoy :)'. Further down is another heading 'Praesent Scelerisque' followed by more placeholder text. On the right side of the preview, there is a sidebar with a newsletter sign-up form and some decorative text. At the bottom, the 'Page details' section contains input fields for 'Keywords' (filled with 'acme, acme corp, corporate website'), 'Description' (filled with 'The homepage of ACME Corporation website'), 'Page title' (filled with 'Welcome!'), and 'Folder' (filled with '/'). An 'Update page' button is located below these fields.

News / Blog Management

Managing news or blog entries is easy: you can either choose a previous post for editing or you can create a new one.

The screenshot displays the Evoleta CMS administration interface. On the left, a navigation menu includes 'General settings', 'Content management', and 'News / Blog management' (which is selected). Under 'News / Blog management', there is a 'Choose a post to edit:' dropdown menu with options 'news3.html', 'news2.html', and 'news1.html'. A 'New post' button is located below the dropdown. The main content area on the right shows a 'Start' tab and a welcome message: 'Welcome Master Admin!'. It also displays the last login information: 'Last login from [redacted] on 2008-06-27 08:33:53.', the server time: 'Server time: 2008-06-29 14:44:02', and the system time zone: 'System time zone: America/New_York'. At the bottom of the main area, it states 'Evoleta CMS v1.0 BETA', 'Copyright © Evoleta SRL 2008. All rights reserved.', and 'This copy is licensed to ACME Corporation.' The bottom navigation menu includes 'Contact messages', 'Mailing list', 'Error page settings', and 'Request for support (Evoleta)'.

Evoleta CMS

Product Sheet

The editor is very similar with the regular content one – we focused to maintain a similar look and feel in every component of Evoleta CMS.

The screenshot displays the Evoleta CMS editor interface. On the left, a sidebar contains navigation links: General settings, Content management, News / Blog management (selected), Contact messages, Mailing list, Error page settings, and Request for support (Evoleta). Under 'News / Blog management', there is a dropdown menu for 'Choose a post to edit:' with 'news3.html' selected, and a 'New post' button. The main editor area is titled 'news3.html' and features a rich text editor toolbar with options for Source, Bold, Italic, Underline, Text color, Background color, Bulleted list, Numbered list, Indent, Outdent, Link, Unlink, Image, Table, and Undo/Redo. Below the toolbar, the text area contains two paragraphs of Lorem Ipsum placeholder text. At the bottom of the editor, the 'Post details' section includes input fields for 'Post title' (News Item #3), 'Post tags' (acme), 'Description', and 'URL page' (news3.html), along with 'Update post' and 'Delete post' buttons.

Mailing lists

This listing displays all active subscribers of your mailing list. Can join it using a simple form and can unsubscribe whenever they decide to comply regulations.

The screenshot shows the Evoleta CMS interface. On the left is a sidebar with navigation options: General settings, Content management, News / Blog management, Contact messages, Mailing list, Error page settings, and Request for support (Evoleta). The 'Mailing list' option is selected. Below it, there is a description: 'Here you can manage your subscribers and send newsletters to them.' and two sub-options: 'Manage subscribers' and 'Send newsletter'. The main content area shows a table with columns: #, Sender, Email, Subject, and Delete. The table contains 20 rows of subscriber data, each with a unique ID, name, email address, and a 'Delete' link. The date for all entries is 2008-06-27 05:26:11.

Evoletto CMS

Product Sheet

Newsletter creation is very similar to content editing. A place holder is used for the subscriber name in order to insure the messages are personalized.

The screenshot displays the Evoletto CMS interface for creating a newsletter. On the left is a navigation sidebar with the following menu items: General settings, Content management, News / Blog management, Contact messages, Mailing list, Error page settings, and Request for support (Evoletto). The 'Mailing list' section is expanded, showing the text 'Here you can manage your subscribers and send newsletters to them.' and two sub-items: 'Manage subscribers' and 'Send newsletter'. The main content area is titled 'Send newsletter' and features a rich text editor with a toolbar containing icons for source, undo, redo, bold, italic, underline, text color, background color, link, unlink, list, indent, outdent, table, image, video, audio, embed, fullscreen, and print. Below the toolbar are dropdown menus for Style, Format (set to Normal), Font, and Size. The text area contains a placeholder 'Dear %FULLNAME%', a line '... [Newsletter body goes here] ...', and a privacy notice: '%SITENAME% respects your privacy and time. We do not share your information with any 3rd parties and only send emails to %SITENAME% visitors who have requested to be notified of product announcements or %SITENAME% news and special events. If you no longer wish to receive these emails, simply click on the following link: %UNSUBSCRIBE%.' Below the text area is a 'Subject' input field and a 'Send newsletter' button.

The sending process is monitored with real-time reporting of the progress.

The screenshot displays the Evoleta CMS interface. On the left is a navigation sidebar with the following menu items: General settings, Content management, News / Blog management, Contact messages, Mailing list (highlighted), Error page settings, and Request for support (Evoleta). The main content area has a top navigation bar with 'Start', 'Subscribers', and 'Send newsletter' tabs. Below the tabs, a message states: 'The newsletter is being sent. You may close this tab, the mailing process runs in background.' A progress bar below this message shows 32% completion. The main content area also contains the text: 'Here you can manage your subscribers and send newsletters to them.' followed by a list: 'Manage subscribers' and 'Send newsletter'.

Error page

You can customize the error messages displayed when visitor requests not existing pages.

The screenshot displays the Evoleta CMS administration interface. On the left is a sidebar menu with options: General settings, Content management, News / Blog management, Contact messages, Mailing list, and Error page settings (which is selected). Below the menu is a text box explaining the error page editor's purpose and an 'Error page editor' button. At the bottom of the sidebar is a 'Request for support (Evoleta)' link. The main content area is titled 'Error page' and contains a rich text editor with a toolbar. The editor shows a heading 'Error 404: Document Not Found' in green. Below the heading is a paragraph of text: 'We're sorry, but the document you requested cannot be found on this server. Most likely, this is a result of yet another reorganization of my Web site to reflect our constant evolution and business emphasis, coupled with a transition from an old server with lots of legacy files to a shiny new server. But then again, it might just be a completely random event and the result of too many cosmic rays. Who knows?'. An 'Update error page' button is located at the bottom of the editor area.
